7 European Workshop on Standardized Procedure for the Inspection of Sprayers in Europe – SPISE 7 -

Closing session

*P. Balsari, S. Fountas, H. Wehmann,
B. Huyghebaert, J. Kole, J. Wegener*

CLOSING SESSION

2 – General conclusions

- 1. Need to improve the PAE inspection activities in MS mainly in terms of:**
 - Percentage of PAE inspected*
 - Inspections quality*
- 2. Improve the final users training/ informations about the mandatory PAE inspection and its advantage is essential (e.g considering this as a mandatory topic in the PP use licence training courses)**
- 3. MS controls of the respect of both Machinery and SUD Directive requirements is really limited and its improvement is needed and should be addressed also from Commission**

CLOSING SESSION

2 – General conclusions (continue)

4. SPISE Advice seems and useful tool to fulfill SUD Directive requirements for those PAE for which is still not available an Harmonized Standard

A SPISE Advices dissemination in MS is strongly required and could become only after their translation in MS language (could in that sense possible to have the help of some voluntaries between the SPISE 7° workshop attendants??)

SPISE Advice dissemination and use shall be accompanied with specific training of the workshop technician in charge to made the inspection of these “special” PAE

CLOSING SESSION

2 – General conclusions (continue)

5. The really dangerous increasing lack of specific professional figure in EU with competence on pesticide application technologies shall be solved

Spise community could gave its support in cover this lack but also a strong action in that sense from Commission and MS authorities is needed (e,g professional training courses)

6- SPISE Community will go ahead with its voluntary activities in helping MS and Commission in improve the complete adoption of the SUD Directive in EU countries, but some support is needed (a more close collaboration with Commission, CEMA/ECPA and Farmers Association could be of help)

ΓΕΩΠΟΝΙΚΟ ΠΑΝΕΠΙΣΤΗΜΙΟ ΑΘΗΝΩΝ
AGRICULTURAL UNIVERSITY OF ATHENS
